April 12, 2022

Hello,

I am writing today with mixed emotions. As many of you have already heard, I am moving to Utah in July to be near my children and therefore will be leaving practice in the area at the end of June. While I am excited to be starting a new adventure, this is bittersweet as I move away from the rest of my family, my work colleagues, and my patients, many of whom I have had the privilege of knowing for more than 20 years.

It has truly been an honor to have been a part of my patients' lives for so long. In fact, I have become one of those physicians who is starting to see as patients the babies that I delivered (how does time fly so quickly?!). Whether you are someone I have seen annually for years, once or often during a pregnancy, for a quick problem visit, or for a more complex issue, I hope that I have managed to provide some comfort, useful advice, shared solutions to problems, and even some humor. You, in turn, have touched my life as well and I have learned from each of you.

I also leave, with reluctance, the amazing people with whom I work at BOGG. From the front-end and telephone staff to the nurses, medical assistants, ultrasonographers, administrative and billing staff, and provider colleagues, these are truly MY people and I will miss them dearly. I can say without hesitation that this is one of the best run offices I have ever experienced, and I have always had a comfort knowing what capable hands my patients are in whether I am in the office or not.

To that end, I know it is always stressful to think about finding a new health care provider. I can reassure you that you remain in the tremendous hands of my colleagues who will continue to care for you in an open, down-to-earth, and unbelievably capable manner. When you contact the office for whatever next appointment you need, the staff will assist you to ensure seamless continuity of care in this practice. I encourage you to learn more about all the providers at [www.bogg.com](http://www.bogg.com) where you will find their professional biographies and personal approach to women's health.

In closing, I am proud to have been a part of Baystate Ob/Gyn Group, Inc. and so thankful to have provided care for so many amazing women over the years. I wish you all the best and excellent health in the years to come. If you have any questions or concerns, please do not hesitate to contact the office through your patient portal or at 413-794-8484.

Sincerely,

Charlene Case, MD
